Municipality of Mirna (Blaz Strmole)

Novo Mesto Urban Municipality (Vlado Gacnik)

Maribor Urban Municipality (Tadej Pesl)

UIP University development center and university incubator of Primorska d.o.o.
(Andrej Medved, Mojca Meglic)

DataLab d. d. (Andrej Mertelj)

Prototype description

It is the European Commission's aim for e-invoicing to become the predominant method of invoicing in Europe by 2020. The objective of this prototype project is to promote e-invoicing between SMEs and budget users both nationally and between neighboring countries. We, the participants already involved in the e-invoicing scheme, are the best promoters of e-invoicing and can help new users with our knowledge and experience.

The aim of the prototype project is to encourage the exchange of e-invoices between Slovenian organizations and their cross-border partners.

In order to create an EU-wide or even broader network, as well as to provide for the general acceptance of e-invoices, it is of key importance that a favourable environment be created that will facilitate new business relations between the participating parties.
